

Message from the Tennis Europe President

As President of Tennis Europe it is my pleasure to welcome you to the 14th ITF Worldwide coaches Workshop. We are most grateful to the Turkish Tennis Federation for hosting the workshop in Antalya. This beautiful area of Turkey, which has outstanding tennis facilities, will also host at the same time the ITF Super Seniors World Championships and later in November the Tennis Europe Junior General Meeting. This shows a great commitment by our member nation to European and International Tennis.

Coaching and coaching conferences have always been a priority for Tennis Europe and we are very happy to be involved in the worldwide conference again this year. The theme for this year's workshop "Quality Coaching in the Future" highlights the importance of having good qualified coaches from grass roots to international level. The most prestigious specialists from all over the world will make presentations and all delegates will receive much first hand information to take back home.

Best wishes to all participants for a successful and enjoyable workshop.

John James
Tennis Europe President
