

MINIMUM RECOMMENDED OFFICIALS' FEES 2026

ITF MASTERS TOUR

The table below sets out the minimum recommended fees as determined by the International Tennis Federation (ITF). These fees are the gross amount to be paid, *i.e. before deduction of any relevant national government taxes, levies or other payments (e.g. income tax, social security contributions).*

While the cost of living varies in different countries around the world and exchange rates fluctuate, we encourage National Associations to enter into an agreement with local officials to pay fees in local currency. The same principle applied to payment of prize money in local currency shall also apply to determining the exchange rate for payment of the minimum recommended officiating fees in local currency.

National Associations / Tournament Organisers electing to or in a position to pay higher fees than the minimum recommendations are encouraged to do so.

Tournament Category	Type of Official	Fee in U.S. Dollars (US \$)
